

## To Our Jewell Family Dentistry Members

*Thank you for being part of our Membership Program at JFD!*

We appreciate your patronage and loyalty. Our membership allows us to keep our treatment patient-centered and focused on what is best for patients' health (and schedules!) rather than being driven by insurance companies. We do our best to keep treatment affordable and pass these savings on to our members with a 20% discount.

As a reminder, our Membership Program works much like a membership to a fitness center or Sam's Club with a flat annual fee which gives you specific benefits throughout the year. Your Membership will be due for renewal annually (if you choose to continue) on the anniversary month of when your membership began. Renewal fees and dates are independent from any appointments you may have scheduled, so renewal dates won't necessarily always coincide with your visits.

### Comparison of Routine Care Out-of-Pocket Expenses

**Non-member/no insurance:** Assuming you're coming in for two cleanings a year, the out-of-pocket would be an average of \$421.

**Membership:** Assuming you're coming in for two cleanings a year, the out-of-pocket would be \$300. That's a savings of approximately \$121! And if any additional treatment is needed, at 20% off that could additionally save you hundreds more!

### Comparison of perio maintenance care out-of-pocket expenses:

**Perio non-member/no insurance:** For patients on a perio maintenance schedule the yearly out-of-pocket would be approximately \$741.

**Perio for Members:** For patients on a perio maintenance schedule with the membership the yearly out-of-pocket would be approximately \$516, includes membership fee. That's a savings of approximately \$225!

*Above fees don't include additional services beyond membership benefits i.e. fillings, root canals, crowns, dentures, etc. Perio-maintenance patients will have additional fees for Scaling and root planing (once in a lifetime) at the discounted rate if on membership.*

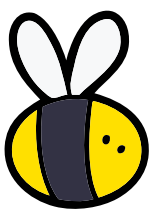

## Benefits of Membership

The benefits in your annual membership include:

- 2 professional cleanings in a benefit year
- 2 clinical exams in a benefit year
- 2 fluoride treatments in a benefit year
- Routine checkup x-rays (bitewings) once per benefit year, or a full series of x-rays for new patients.
- 20% off all additional procedures (excluding orthodontic services). There is no limit on the type of procedures that qualify for a 20% discount - fillings, additional cleanings, crowns, implant restorations, partial dentures, even whitening and cosmetic procedures!

What's the Buzz!

## We are the CHAMPIONS!

Jewell Family Dentistry WON the float contest at Jewell Jubilee 2019! Thanks to our incredibly talented and creative staff, our shark float was a hit! It feels oh so good to have that traveling trophy back in our window! Stop by and take a look, we kind of like to show it off!

# NEW WHITENING!

We are excited to share that we added an amazing new whitening product to our office: **Opalescence GoTrays**. This whitening product includes 10 trays which are easier to use and more effective than over-the-counter strips. These trays also contain fluoride and desensitizing agents to reduce sensitivity from whitening and keep the enamel strong! And at only \$75 they are an affordable way to achieve professional whitening!

628 Main St.  
Jewell, IA 50130

## Welcome Kara!

We have a new addition to our team! We are excited to introduce Kara DeRidder as a new hygienist at Jewell Family Dentistry! Kara moved back home to Roland from the West Des Moines area and is already an amazing addition to our office.

A few words from Kara: "I met my husband when we were in college at Buena Vista in Storm Lake. Go Beavers! And while we didn't attend ISU, we are definitely Cyclones at our home! I have been a hygienist for 8 years; I went to dental hygiene school in Wyoming not long after BVU. But I love Iowa too much and didn't stay to become a cowgirl.

After getting married to Travis 8 years ago, we have lived in Ankeny and enjoyed the city life, but both grew up in small towns and ready to go back to the quiet, simple small-town life! We moved to Roland in July.

Our family likes to play outside whenever we can, ride bikes, and trips to the carousel. We are becoming involved with community activities and our church. We love our 4-legged rescue friend, Millie, who is 12 years old now. I like to cook, and shop for/decorate our new house in Roland. Travis and I like to take road trips and discover new places and restaurants. We also like going to baseball games and checking out new breweries! We are also excited for our 4-year-old daughter, Willa, to start preschool at Roland-Story! We have a 2-year-old son Lewis. I love being "Mommy" and am thankful for the opportunity to stay home with kiddos a few days of the week too!"

Kara's patients will tell you she's very thorough and gentle and can put your worries at ease. Going to the dentist doesn't have to be scary and everyone deserves a confident, healthy smile! Kara loves to see patients of all ages!
